HTML, CSS, Javascript, Bootstrap, TypeScript, ReactJS, Redux Jest, MySQL, MongoDB, Mongoose ExpressJS, NodeJS, Git, Github, Java, Linux, MS Excell, MS Word

PROJECTS

GleamIt | Social-media-app | CSS, ReactJS, APIs | [Live](#) | [Source](#)

- Developed features and functionalities like user-feed, create posts, bookmarks, follow, unfollow, like and dislike, using React hooks such as useState, useEffect, and useContext, enhancing the user experience and ensuring efficient state management.
- Implemented React Router for smooth navigation and seamless user interactions.
- Integrated real-time Toast notifications and Mockbee **API** for improved user feedback and seamless data management and **JWT** tokens for user authentication

Mobel | E-commerce | CSS, ReactJS, APIs | [Live](#) | [Source](#)

- Developed an e-commerce site for furniture, features including listings, details pages, a shopping cart, and a user-friendly checkout process.
- Utilised React hooks (useState and useEffect) for efficient state management, enabling seamless interactions throughout the shopping experience.
- Integrated React Router for smooth navigation, allowing users to browse product categories and view individual product pages, along with real-time Toast notifications for enhanced user feedback. Backend powered by Mockbee **API** for product data, user authentication using **JWT**, and order processing.
